Unlock the full potential of your photography with the Elinchrom D-Lite RX ONE Dual Studio Kit

Designed for both beginners and seasoned professionals alike, this comprehensive kit provides the essential tools to kickstart your creative journey or take your photography content creation to the next level.

At the core of this kit are two D-Lite RX ONE strobes, renowned for their reliability, versatility, and powerful 100Ws. These compact yet robust strobes deliver consistent and precise lighting, ensuring that every shot captures the essence of your subject with clarity and detail.

With the included Elinchrom Transmitter Plus, you have the flexibility to wirelessly control and trigger the strobes from your camera, allowing for seamless operation and enhanced creative control. This intuitive transmitter simplifies the process of adjusting settings and fine-tuning your lighting setup, empowering you to focus on capturing the perfect shot.

Complementing the strobes is a range of essential accessories designed to enhance your studio workflow. The kit includes durable and easy-to-use light stands, ensuring stability and support for your equipment during shoots. Additionally, the kit features two versatile Rotalux Recta Softbox 60x80cm (23.6x31.5"). This adaptable modifier enhances your photography in various applications, from portraits to food photography. Its soft and even light distribution brings out the best in your subjects.

Kit Includes:

- 2x Elinchrom D-Lite RX ONE: A reliable, compact strobe that delivers powerful lighting performance.
- Elinchrom Transmitter Plus: Wirelessly trigger the strobe from any camera for seamless control.
- 2x Rotalux Recta Softbox 60x80cm (23.6x31.5"): Maximize flexibility with this softbox size, ideal for both portrait and product photography.
- 2x Adjustable Stand 88-235cm (2.8-7.7'): Ensure stability and safety for your lighting setup.
