## **ELINCHROM ONE OFF-CAMERA FLASH PORTRAIT KIT**

### 20933.1

#### **Transform your portrait photography with the Elinchrom ONE Off-Camera Flash Portrait Kit.**

This comprehensive kit is perfect for photographers of all skill levels, offering the essential tools to help you create stunning, professional-quality portraits effortlessly.

At the core of this kit is the Elinchrom ONE, a versatile and powerful off-camera flash that provides up to 131Ws. Its compact and lightweight design makes it ideal for both studio and on-location shoots, ensuring reliable performance no matter where your creativity takes you. With a built-in Li-Ion battery, the Elinchrom ONE delivers up to 725 full-power flashes on a single charge. Plus, its integrated Bluetooth allows for seamless control via the Elinchrom app.

The kit also includes an OCF Wide Reflector (16 cm/6.3»), which broadens the light spread. This reflector is perfect for illuminating large areas or creating soft, even lighting for portrait photography, ensuring every shot captures your subject with stunning clarity and detail.

The Deep White Umbrella included in the kit is designed to provide soft and flattering light, ideal for portraiture. Its deep, parabolic shape ensures optimal light control and direction, making it a versatile tool for achieving beautiful, natural-looking results.

To enhance your creative options, the kit comes with the OCF Gel Dome Kit. This set of color gels lets you add vibrant, dramatic effects to your portraits, allowing you to experiment with different moods and atmospheres. The gel dome is easy to attach and use, giving you the flexibility to quickly adapt to various shooting conditions.

**Kit Includes:**

- Elinchrom ONE: A powerful and portable off-camera flash with 131Ws output and a built-in Li-Ion battery for up to 725 full-power flashes.
- OCF Wide Reflector (16 cm/6.3»): Broadens the light spread for even and soft illumination, ideal for portraits.
- Deep White Umbrella: Provides soft, flattering light with excellent control and direction for professional-quality portraits.
- OCF Gel Dome Kit: A set of color gels to add creative and dramatic effects to your images.

With the Elinchrom ONE Off-Camera Flash Portrait Kit, you'll have unparalleled control and creativity in your portrait photography. Whether you're a beginner or a seasoned professional, this kit equips you with the tools to capture breathtaking portraits effortlessly and confidently.

 **ELINCHROM THREE OFF-CAMERA  
FLASH PORTRAIT KIT**

20943.1

**Reach new heights in your portrait photography with the Elinchrom THREE Off-Camera Flash Portrait Kit. Designed for both novice photographers and seasoned experts, this comprehensive kit provides everything you need to achieve professional-quality portraits with ease.**

The centerpiece of this kit is the Elinchrom THREE, a robust and versatile off-camera flash delivering up to 261Ws of power. Renowned for its reliability and precision, the Elinchrom THREE ensures consistent lighting that captures your subject with extraordinary clarity and detail. Its compact and lightweight build makes it perfect for both studio sessions and on-location shoots.

Accompanying the Elinchrom THREE is the Rotalux Go 60 CM (24") softbox. This versatile modifier enhances your photography across a range of applications, from portraiture to product photography. The Rotalux Go provides soft, even light distribution, highlighting the best features of your subjects and creating beautifully lit images with natural results. Its quick assembly and disassembly make it highly convenient for photographers on the move, and the innovative folding mechanism offers the portability of an umbrella with the quality of a traditional softbox.

**Kit Includes:**

- Elinchrom THREE: A reliable, compact off-camera flash that delivers powerful 261Ws with excellent performance.
- Rotalux Go 60 CM (24") Softbox and its adapter: Maximizes flexibility with its compact size, ideal for both portrait and product photography.

Experience the freedom to create with the Elinchrom THREE Off-Camera Flash Portrait Kit. Whether you're just beginning your photography journey or are a seasoned professional, this kit provides the tools you need to capture stunning portraits with confidence and ease.
